

2010 HYDROMAT TRAINING SCHEDULE

- Standard Machine Operator/Maintenance class includes all Hydromat Rotary Transfer Machines including units, toolheads, control valves and their operation and repair.
- EPIC Operations Training includes introduction to the EPIC controls, basic single and multi-axis programming. Also covers major Hydromat components and accessories.
- Note: We will fill class registration with persons from a number of companies, and limit our class size to 10. If demand is greater than 10, additional classes will be scheduled. Classes may be rescheduled if registration does not meet the minimum number of attendees.
- Registration: Minimum three weeks in advance.
- Price for the four-day Operator/Maintenance seminar is \$875.00 per person. Price for the three-day EPIC seminar is \$875.00 per person. Catered lunch daily.
- As a prerequisite for the Standard seminars, we suggest the 11 tape Hydromat video or CD-ROM training course, or 1 to 2 years of hands on experience since this is an advanced course.
- Hydromat is conveniently located 15 minutes from St. Louis Lambert International Airport. Travel should be planned for arrival Monday evening prior to the Seminar date, and the departure should be Friday, 4:00 p.m. or later for the Operator/Maintenance seminar and Thursday 4:00p.m. or later for the EPIC seminar.
- A cancellation fee of 50% of the cost of the course will apply if cancelled less than three weeks prior to course.
