

Hydromat becomes Tornos' exclusive NA distributor

Hydromat is pleased to announce a new strategic alliance with Tornos S. A. of Switzerland. Hydromat Inc., headquartered in St. Louis Missouri, will now represent the Tornos line of multi-spindle lathes in the United States, Canada and Mexico. The addition of the Tornos line of multi-spindle machines to their array of rotary transfer machines creates the ultimate line-up for the precision part making industry. Hydromat's extensive experience in the marketplace and engineering excellence teamed with the Tornos multi-spindle line enables Hydromat to expand its offerings to always give its customers

the best metal cutting solution for each specific application. Hydromat's commitment to the Tornos multi-spindle operation will include sales, engineering, set-up, service, and parts stocked at their centrally located St. Louis campus.

The Hydromat organization, a staff of 150+, will bring their dedication to total customer satisfaction and a commitment to excellence to the future success of these products to be known as "TORNOS MULTI by Hydromat."
